**Aldis Teams with Control Specialists Company Streamlining GridSmart Sales and Service for the Southeastern United States**

OAK RIDGE, TN - Aldis Corp., a leader in next generation traffic management systems, announced today the addition of Control Specialists Company (CSC) to the Aldis strategic sales channel serving cities and municipalities with more efficient and cost effective intersection video traffic management solutions.

Control Specialists will provide the entire line of Aldis GridSmart traffic solutions including the Spectra 360<sup>TM</sup>, designed for intersection traffic management utilizing video tracking and the Optima 360<sup>TM</sup>, which adds support for vehicle counting data and pedestrian handling. Ultra 360<sup>TM</sup> (available in late 2009) will provide a complete intersection management solution including such features as vehicle preemption and dilemma zone functionality.

“We look forward to working with Control Specialists and their skilled staff to serve the southeastern region,” stated Eric Seabrook, Vice President of Sales and Marketing for Aldis. “As we continue to grow our GridSmart strategic sales network, it is vital that we align with the right traffic partners and with a long history of success servicing the southeast, it is clear that CSC was a perfect choice.”

“Aldis is the perfect complement to our strategy of non-invasive, cost effective technology for the smart highway,” stated Robb Bingham, National Sales Manager for Control Specialists. “Moreover, GridSmart adds to our solution set for safe and efficient intersection control.”

Under the terms of the agreement, Control Specialists will provide the Aldis GridSmart solutions exclusively in central and northern Florida, Georgia and other areas in the southeastern United States. Current GridSmart customers will continue to receive sales and service directly from Aldis with the addition of local support from CSC.
