**Aldis Teams with M.H. Corbin Incorporated**

OAK RIDGE, TN - Aldis Corp., a leader in next generation traffic management systems, announced today the addition of M.H. Corbin Incorporated to the Aldis strategic sales channel serving cities and municipalities with more efficient and cost effective intersection video traffic management solutions. During their 20+ years in business, M.H. Corbin has been focused mainly in highway ITS products and service including paint, road weather information systems and cameras. Adding video traffic actuation to the company's portfolio will open new opportunities for intersection management which were previously not serviced.

“We are excited about expanding our distribution network into the northeastern region and look forward to teaming with M.H. Corbin to serve our customers,” state Eric Seabrook, Vice President of Sales and Marketing for Aldis. “With a long history of success in traffic safety and ITS, we believe the team is the perfect fit for our rapidly expanding group of Aldis channel partners.”

M.H. Corbin will provide the entire line of Aldis GridSmart traffic solutions including the Spectra 360™, designed for intersection traffic management utilizing video tracking and the Optima 360™, which adds support for vehicle counting data and pedestrian handling. Ultra 360™ (available in late 2009) will provide a complete intersection management solution including such features as vehicle preemption and dilemma zone functionality.

Under the terms of the agreement, M.H. Corbin Incorporated will provide the Aldis GridSmart solutions exclusively in Ohio and cover other areas in the northeastern United States including West Virginia, New York, Pennsylvania, North Carolina and South Carolina. Current GridSmart customer will continue to receive sales and service directly from Aldis with the addition of local support from M.H. Corbin.
