**Aldis Teams with Electromega Ltd.
Expanding GridSmart Sales and Service into Canada**

WASHINGTON, D.C. (ITS AMERICA) - Aldis Inc., a leader in next generation traffic management systems announced today the addition of Electromega Ltd. to the Aldis strategic sales channel serving all Canadian provinces with a more efficient and cost effective intersection video traffic management solution.

Electromega will provide the entire line of Aldis GridSmart traffic solutions including the Spectra 360™, designed for intersection traffic management utilizing video tracking and the Optima 360™, which adds support for vehicle counting data and pedestrian handling. Ultra 360™ (available in late 2009) will provide a complete intersection management solution including such features as vehicle preemption and dilemma zone functionality.

“We are thrilled with the opportunity to expand our products and solutions into the Canadian market with Electromega. They have an exceptionally skilled and professional staff,” stated Eric Seabrook, Vice President of Sales and Marketing for Aldis. “As we continue to grow our GridSmart strategic sales network, it is vital that we align with the right traffic partners and with a long history of success serving Canada, it is clear that Electromega was a perfect choice.”

"Electromega's continuous quest for new, innovative, and state-of-the-art technologies to offer its customers, has led us to Aldis. The GridSmart system brings a fresh new solution to the present video traffic detection systems," said Pascal Lamoureux, Director of Sales and Marketing for Electromega.

"We are delighted to formalize an agreement with Aldis. It will allow Electromega to provide an innovative and efficient solution to help meet today's transportation challenges"

Under the terms of the agreement, Electromega will provide the Aldis GridSmart solutions throughout Canadian provinces with offices and direct support locations in Quebec, Ontario and British Columbia.
